

# BRIAN ANTHONY MORALES

---

SOFTWARE DEVELOPER | DUBAI, UNITED ARAB EMIRATES

## DETAILS

Available upon request

## LINKS

LinkedIn: <https://www.linkedin.com/in/brianmorales>

Email: [bmorales@devbrian.com](mailto:bmorales@devbrian.com)

## SKILLS

C#, ASP.NET MVC, ASP.NET Core, SQL, Microsoft Azure, Azure AKS, Azure DevOps, OutSystems, HTML/CSS/JavaScript, Angular, TypeScript, MongoDB, Redis, RabbitMQ, EventStore, Kubernetes, Docker, HELM, Sitecore, Linux, Python, PowerShell, .NET Framework, Legacy System Modernization, API Development, Web Services, Microservices Architecture, CI/CD Pipelines

## PROFILE

Experienced Software Developer with 10+ years of expertise in full-stack development, cloud technologies, and legacy system modernization. Proficient in an assortment of technologies, including C#, .NET stack, Azure cloud services, low-code platforms (OutSystems), and modern development tools. Skilled in containerization with Docker and Kubernetes, event-driven architecture, and microservices development. Experienced in working with diverse technology stacks including NoSQL databases (MongoDB), caching solutions (Redis), message queuing (RabbitMQ), and CI/CD pipelines using Azure DevOps. Leverages AI and LLM technologies to enhance development productivity and code quality. Capable of implementing front-end solutions with Angular and TypeScript when needed. Able to effectively self-manage during independent projects, as well as collaborate in a team setting to deliver scalable, future-proof enterprise solutions.

## EMPLOYMENT HISTORY

### Backend Software Developer at Codeless Middle East DMCC

May 2023 — Present

- Contribute to the development and enhancement of CodeX, the company's proprietary low-code platform.
- Participate in migration of legacy enterprise systems to modern .NET stack architecture.
- Develop and implement solutions using latest .NET technologies.
- Develop automated workflows and integrations across industries (transport, logistics, maritime).
- Work with Redis, MongoDB, EventStore, and RabbitMQ.
- Utilize Azure AKS, Docker, HELM, and Azure DevOps CI/CD pipelines.
- Support full-stack needs with Angular and TypeScript.
- Optimize performance and database queries.
- Create technical documentation and PowerShell automation.
- Collaborate with product managers and stakeholders.

### Senior Software Developer at Cloud Development Resources, Inc. (Emids)

May 2021 — May 2023

- Updated legacy codebases using OutSystems low-code platform.
- Documented OutSystems solutions, architecture, and implementations.
- Developed custom features and components in OutSystems.
- Integrated OutSystems with AWS, SAP, and external systems.

### Application Development Senior Analyst at Accenture, Inc.

January 2014 — May 2021

- Implemented SAP web services integrations with C#.
- Deployed and managed apps with Azure DevOps.
- Modernized legacy apps (Classic ASP/Visual Basic) into .NET microservices.
- Wrote optimized SQL queries and stored procedures.
- Mentored and managed junior developers.
- Developed and maintained Sitecore-based websites and components.
- Collaborated on e-commerce strategies within Sitecore.
- Debugged and supported applications using ServiceNow and Splunk.

## **EDUCATION**

BS Information Technology, Colegio De San Juan De Letran

June 2005 — March 2009

Awarded with Certified IBM Linux Programmer certification.

## **CERTIFICATIONS**

- CS50P: CS50's Introduction to Programming with Python (Nov 2022)
- Mobile Developer Specialist (OutSystems 11) (Feb 2022)
- Associate Reactive Developer (OutSystems 11) (Jul 2021)
- Sitecore XP 8 Website Development for .NET Developers (Feb 2016)
